

SUPPORT THROUGH CHALLENGING TIMES

Supporting our clients, supporting our people and supporting our community
Safety and the best results will only come from working together as a team - Team Human

SUPPORTING OUR CLIENTS

These are certainly confusing times. Information, education and compassion will get us all through in the best possible manner.

Here is what we are doing to play our part:

- Weekly market analysis to keep you current on what's happening right here in the Region
- New COVID procedures, documents and clauses to ensure everyone's safety
- Increased screening and pre-qualification
- Virtual meeting and signing solutions
- New virtual marketing initiatives
- Free PPE (personal protective equipment) for our clients

SUPPORTING OUR PEOPLE

In order to be the best advisors they can be, we prioritize the physical, mental and financial health of all our Realtors®.

Here is what we are doing to support our people:

- 3x a week virtual development sessions to keep us all growing & informed
- Weekly market deep dives into the changing data
- A company-hired mindset trainer/coach to keep us all on top of our game
- Free PPE kits
- Interest-free financial loans and support
- No desk fees, as always - providing cost certainty through uncertain times.

SUPPORTING OUR COMMUNITIES

This is our office, our playground and where we raise our families - and we couldn't be more proud to call the Region our home. That's always been the case, and will never change.

Here are just a few of the ways we LOVE to help:

- Grocery shopping and delivery service for high-risk individuals and households
- The open-ended 'Tell us what you need' initiative - visit TDubLoves.com for details
- Business support for local independent organizations of any size
